Write up on Lasers in Proctology and Varicose Veins Treatment Workshop

Lasers in Proctology and Varicose Veins Treatment

The Department of General Surgery, Narayana Medical College, successfully organized a live hands-on workshop titled “Lasers in Proctology and Varicose Veins Treatment” on **13th March 2026** at the **B.C. Roy Gallery** and **General OT Complex**.

The workshop was conducted in association with **Meril Life Sciences**, aiming to enhance the knowledge and technical skills of surgeons and postgraduate trainees in the application of laser technology for minimally invasive management of proctological disorders and varicose veins.

The scientific programme featured expert sessions and live surgical demonstrations led by **Dr. Prosenjit Choudhury**, an eminent surgeon and Head of the Department of Surgery at Olivia Nursing Home & Diagnostic Centre, Kolkata. The workshop provided participants with an in-depth understanding of the principles, indications, and advantages of laser-based procedures.

Key highlights of the workshop included:

- Overview of laser physics and mechanisms of action
- Application of lasers in hemorrhoids, fistula, and fissure management
- Laser techniques in the treatment of varicose veins
- Live operative demonstrations showcasing minimally invasive laser procedures
- Discussion on patient selection, outcomes, and complication management

The live surgical sessions were particularly well-received, offering participants valuable exposure to advanced techniques and real-time decision-making in the operating room. Interactive discussions allowed attendees to clarify doubts and gain practical insights into adopting these technologies in their clinical practice.

The workshop was organized under the leadership of **Dr. V. Mahidhar Reddy**, Professor and Head of the Department of **General Surgery**. The organizing team included **Dr. N. Venkata Harish** and **Dr. Chaitanya Kumar Reddy**, who played a key role in coordinating the event.

The programme witnessed enthusiastic participation from faculty members, postgraduate students, and practicing surgeons. It was highly appreciated for its practical relevance and contribution to advancing surgical skills in the era of minimally invasive surgery.
