

Report of
Debate on uses of AI – 2026
ORGANISED BY student ASSOCIATION ACTIVITIES.

1.	Name of the event/activity	Debate on uses of AI
2.	Date of activity/event	10/03/2026
3.	Organised by/Name of the committee	Student Association Activity
4.	Place of the activity/event	Seminar Hall
7.	Activity/Event objectives	Debate on Uses of Artificial Intelligence.
8.	Participants	Students- 30 Teachers-2
9.	Enclosures	Participation list Photos Event report
10.	Faculty organizers	N.Surekha M.Sunitha
11.	Signature of incharge/convenor	

Objective of the Debate

The main objectives of the debate were:

- To create awareness about the role of Artificial Intelligence in different fields.
- To encourage students to share their opinions and ideas.
- To improve students' public speaking and analytical skills.
- To understand both the benefits and limitations of AI technology.

Debate Session

The debate was conducted with two groups of students: one group supporting the use of Artificial Intelligence and the other group discussing its disadvantages. Students presented their arguments with confidence and supported their views with examples.

The supporters explained how Artificial Intelligence helps in areas such as healthcare, education, automation, and data analysis. They highlighted how AI improves efficiency, reduces human effort, and supports innovation.

On the other hand, the opposing team discussed the potential risks of AI, including job displacement, privacy concerns, and overdependence on technology. They emphasized the need for responsible use and ethical guidelines in AI development.

Key Highlights

- Discussion on the benefits of Artificial Intelligence in various industries.
- Arguments about the challenges and risks associated with AI.
- Active participation of MCA students in presenting their viewpoints.
- An interactive question-and-answer session with judges and audience.
